

**CITY OF HUNTINGTON BEACH  
PUBLIC WORKS COMMISSION  
REQUEST FOR ACTION**

Item No. 09-20

**SUBMITTED TO:** Chairman McGovern and Members of the Commission

**SUBMITTED BY:** Travis K. Hopkins, PE, Director of Public Works

**DATE:** June 17, 2009

**SUBJECT:** Central Park Irrigation Pump Station Construction Project  
(CC-1268)

**Statement of Issue:** Plans and specifications are in final preparation for the Central Park Irrigation Pump Station Construction Project. Staff is seeking support for the project and the initiation of the competitive bid process.

**Funding Source:** Funds for the project are available in Water Fund Account No. 50691024. 82100. The engineer's cost estimate for this project is \$250,000.

**Recommended Action:** Motion to recommend to the City Council the Central Park Irrigation Pump Station Construction Project.

**Alternative Action(s):** Recommend alternative designs or project components.

**Analysis:** The Central Park Irrigation Pump Station is located in Huntington Central Park, approximately 100 ft. south of the Park Bench Cafe. The existing pump station is over 20 years old and in a state of disrepair. The project will build a new pump station facility using pre-packaged pumping equipment, immediately adjacent to the existing station, to allow for the operation of the existing pump station during construction. The old station will then be abandoned and the new station will take over full irrigation operations. The new pump station has a higher capacity and is more efficient, thereby providing savings on future operation and maintenance costs.

The project is the first phase of a larger project that will eventually supply water from Well No. 8, located near Goldenwest Street and Warner Avenue, to irrigate Central Park, Sports Complex, Murdy Park, and landscape medians along Goldenwest Street. The improvements at the well and other pipeline re-configurations will be done under Phase II.

G-1'

**Environmental Status:** Staff has determined that the project is categorically exempt from CEQA per Article 19, Section 15301.
